

Create a Graticule Polygon (Form 21 Attachments 1 and 2)

Transcript

In this video, you will learn how to create a polygon by selecting graticule blocks and how to print Form 21 Attachments 1 and 2 for an exploration licence application.

From the top task bar menu, select Enquiry. Select Release from the drop down menu list. This will help us locate available ground for a new tenement application.

Select a mining tenement from the list with a Release Status of RELEASED and click Apply.

A map with the selected tenement displayed in the centre of the screen is loaded.

From the top task bar menu, select Process then Enhanced Plot option, and finally Create Graticular Polygon.

Using your mouse, identify the blocks required to form a polygon. As you select the graticules on the map display, the block description will be updated and shown in the dialogue box.

The shape of the polygon can be changed by clicking on the orange boxes in the Create Construct Polygon from Graticules dialogue box.

If you make a mistake re-click on the block and it will be removed.

Once all the blocks have been selected, click the Create Polygon button. The polygon you have created is shown on the map with a purple pattern.

To print a list of graticules within the polygon, click on Print Description.

From the Print Graticules to PDF dialogue box that opens, select Print.

Now we will print a Form 21 Attachment 1 to lodge with an exploration licence application.

Select the Print Attachment 1 button.

Type in the locality and click on Print.

Within a few minutes you will receive an email containing a link to your TENGGRAPH print.

Click on the link to view the attachment.

Now we will create the Attachment 2. This will contain the same blocks shown in the Attachment 1 form.

Select the Print Attachment 2 button.

Note: You may need to change the scale of the map to see the entire extent of the Attachment 2 print. If necessary change the scale and position to include the entire polygon.

When you are happy with the scale and position of the proposed Form 21 Attachment 2, press Print.

A link to the PDF Form 21 Attachment 2 will be emailed to you. You can save this PDF or submit it with an exploration licence application.

If you would like further information about printing graticule polygons, click on the Help button or call the Department's IT Help Desk 08 9222 0777 during office hours.
