Resources Safety

Traffic management

HOW SAFE SYSTEMS, SAFE VEHICLES AND SAFE PEOPLE
CAN CONTRIBUTE TO A SAFE MINING OPERATION

Bunbury Geraldton Kalgoorlie Karratha Leonora
Mandurah Newman Perth Port Hedland Tom Price

Invitation to attend

The 2017 Mines Safety Roadshow is the thirteenth in an annual series presented by Resources Safety. It is an interactive event that encourages engagement and the exchange of ideas.

The program starts with an update on what is happening in mines safety and health in Western Australia from both regulatory and industry perspectives.

Our focus will be the importance of traffic management and how safe systems, safe vehicles and safe people can contribute to a safe mining operation. The program showcases three new hazard videos, as well as workshops on tackling troubling trends and dangerous goods transport and management.

Safety and health representatives, supervisors and others responsible for safety and health are encouraged to attend.

Bookings are essential.

The roadshows aim to raise awareness and share solutions, rather than provide professional development.
